

# Welcome to Year 2

## An introduction

Hello everyone!

My name is **Miss Chatrath** and I am extremely excited about being your teacher from September 2020!

On a good day, reading a good book, this is what I look like 😊

## What will we be learning in Year 2?

Year 2 is an important year and we will naturally be expecting more from you than in Year 1. Rest assured, we care about your whole development and wellbeing and will do our absolute best to ensure you flourish in every way possible!

In September, there are many exciting and interesting topics you will be learning about. Here are some of them:

-Reading and writing stories, poems, play scripts, instruction writing and non-chronological reports.

-Finding out about people of significant importance from the past (Samuel Pepys, Guy Fawkes, Christopher Columbus).

- Exploring and observing plants, animals and their offspring, animals and their habitats, uses of everyday materials and more!

-Studying Kenya and comparing it to the UK.

-Creating silhouettes, collages; learning to stitch and make rockets!

### Tips on how to be a successful learner

-**Read** for 20 minutes every day- This can be using Bug club books, any books you have around your home, research from the internet and more. Here are a few books I'd recommend you read:

-Practise your 1, 2, 5 and 10 **times tables** - Use Timestables Rockstars help you do this.

-Practise your **phonics** and **spelling**. Search for 'Letters and sounds lessons'. You can choose from learning to blend or Year 1 lessons. Use these to practise writing sentences. Why not try and see if you can write a short story using some of the words from the videos?

### Summer Project!

In the Autumn term, we will be learning about Guy Fawkes, and the Great Fire of London.

1. What interesting facts and information can you find out over the summer holidays?

2. Make a Tudor house from card or cardboard. Here are some examples to help you.
