RE: Chicken Pox

Dear Parents and Carers,

We would like to make you aware that there have been a few suspected cases of chickenpox reported across some classes over the past week.

As communicated in this week's Woodlands bulletin, we kindly ask that you continue to monitor your child for any signs or symptoms of chickenpox. Early symptoms can include a fever, aches and pains, and a characteristic itchy rash that develops into fluid-filled spots before crusting over.

If you suspect that your child has chickenpox, please follow the latest guidance provided by the NHS [click here](#). We recommend visiting the NHS website for information on symptoms, treatment, and when children should remain at home to help prevent the spread of infection.

Thank you for your support in helping us to keep our school community healthy and safe.

Kind regards,

Ms Chasker
Headteacher
